

15 September 2025, Prague

The PhD day is facilitated by:

- Thomas Budde Christensen, Roskilde University (email: bbc@ruc.dk / cell phone +45 20 78 43 79)
- Cristina Rocha, Laboratório Nacional de Energia e Geologia
- Michael Martin, IVL Swedish Environment Research Institute & KTH Royal Institute of Technology

Venue: The address is: Kamýcká 129, Prague 6, ZIP: 165 00. The venue is the Faculty of Tropical Agrisciences. Map of the campus: <https://www.czu.cz/en/r-17651-map-od-campus>

Programme

09:45 – 10.15 Registration

10:15 – 10:45 Introduction session

- Welcome speech
- Round of presentation
- Introduction of ERSCP

10:45 – 11:15 Coffee break and networking

A flipchart with post-its will be available to pose questions for the Q&A session with the panel of mentors / keynote speakers

11:15 – 13:15 Poster sessions

An interactive poster session is organized where participants must present their work and is given feedback for fellow PhD students and mentors. During the poster session, the students are split into smaller groups to facilitate a safe and constructive dialogue.

Prior to the PhD day, each student must prepare a poster of a selected topic related to their PhD project and prepare an oral presentation (5-10 min) of the poster.

13:15 – 14:15 Lunch

14:15 – 15:15 How to use AI ethically

Presentation and discussions on how to use generative AI tools in research and the ethical implications of doing so.

15.30-17.00 Q&A with the panel of mentors / keynote speakers

A common session in which all participants will have the opportunity to ask questions to the panel of mentors. First, the mentors will briefly summarize their experience when supervising PhDs. Then, we will have an open conversation pivoting around the themes of interest raised by the participants. To do so, we will collect questions during the coffee-break and networking period in the morning, but there is the opportunity to raise questions during the session as well.

17:00 – 18:30 Drinks & network

19.00 Dinner together

Restaurace U Mlynáře

Nerudova 213/18

118 00 Praha 1
